

Framery One

Framery One, the first digital soundproof pod. It is not only stylish and super smart, it incorporates the latest technology, leading sound insulation standards and echo-free acoustics.

OPTIONS & FEATURES

- Colour options: 8 Exterior panels, 4 Interior panels, 8 Seat fabrics, 4 Carpets, 3 Table colours (see next page).
- Framery Connect subscription option
- Occupancy indicator
- Wireless charger
- Activated carbon filter
- LAN
- Movability kit & Seismic anchors
- **Exterior:** powder-coated deep-drawn steel panels
- **Interior:** replaceable interior panels made from PET sheets which are laminated with polyester fabric
- **Glass:** sound control laminated glass
- **Frame:** semi-gloss black frames made from steel & aluminium
- **Tabletop:** formica laminate on birch plywood with varnish trim
- **Solid walls, roof & floor:** a sandwich element of sheet metal, birch plywood, recycled acoustic foam & acoustic felt.

DIMENSIONS

- **Exterior:** 225,5 x 122 x 100 cm
- **Interior:** 204 x 102 x 93 cm
- **Door:** doorway 204 x 101,5 cm
- **Table:** 76 x 45 cm
adjustment height 70 - 120 cm
- **Adjustable seat:** 59 - 85 cm
- **Weight:** 325 kg
- **Air Flow:** 29 l/s.

POWER

- **Power consumption:** 35 - 80 W while in use
- **LED lights:** 19 - 24 W
- **Fans:** 7 - 9 W
- **USB C charger:** 21 W
- **Wireless charger:** 12 W
- **Input:** 100 - 240 VAC, 10.0 A, 50 - 60 Hz
- **Output values:**
VAC (power socket): 100–240 VAC, 6,6 A, 50–60 Hz
USB C Charger: 18 W
Wireless charger: 10 W

ACOUSTICS

In January 2021, a new standard ISO 23351 - 1 has been introduced to the industry to measure the level of sound insulation of enclosed spaces including acoustic pods. It produces a single figure called speech level reduction (DS,A) that describes the degree of speech privacy the product being tested provides.

Framery One: >30 dB

BUILT TO LAST

The design has been thought to last decades so you can **change the panel colours** in a few minutes and feel like you have a new pod. The **castor option is available** to offers a flexible solution to workplaces.

As the other Framery products, **sustainability** is a real focus in the production process: 95% of the material used can be recycled.

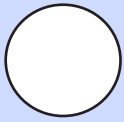

CONNECTIVITY

Framery One allows **adjusting the lighting and airflow** to your convenience by using the high-res touchscreen & seamless UI. The **occupancy light** lets people know whether the pod is reserved or free to use. The **calendar integration enables reservations** of the pod on-demand. Behind the scenes, the seamless connection, Framery Connect subscription, keeps the pod performing perfectly & **collects the pod's utilisation rate and return on investment.**

CERTIFICATES

FIRE SAFETY

No flammable materials are used in Framery products. The fire safety of all surface materials, upholstery and acoustics materials of the products are tested and classified by either national or international standards. EN 13501-1 classification for the used materials is the following: acoustic wool is classified B-s1, d0, acoustic felt B-s2, d0 and carpet Cfl-s1. All surface materials have also been tested against ASTM E84 / UL 723 and are classified at least as Class C. Outer frames with laminated surface are IMO certified (French Maritime Authority).
